Gnarrenburg, 15.12.2023

Dear Ms. Cine,

I am writing to express my sincere gratitude and appreciation for the successful cooperation between your school, Kuldīgas Tehnoloģiju un tūrisma tehnikums, and our organization over the past twenty years.

Our first contact was made approximately two decades ago when we organized our first mutual ErasmusPlus mobility project, which was then known as "Leonardo da Vinci." Since then, I have hosted a total of 150-200 students from your school in Germany. Through the years, our collaboration has proven to be highly successful, with no issues or complications in any matter. I must commend you and your staff for always giving your best for the benefit of all the students involved. Together, we have provided these students with a solid foundation for their professional careers.

I would like to highlight one particular instance that stands out in my memory, which demonstrates your dedication to your students. In March of 2020, when the COVID-19 pandemic was about to break out in Europe, two of your students were still in Germany. With the impending closure of borders on March 16, 2020, we worked together with utmost determination and perseverance to secure the last available flight for these students to return to Latvia. I cannot imagine how challenging it would have been without your motivation and unwavering support.

I am grateful for the fruitful partnership we have established between our organizations, and I sincerely hope that it will continue to thrive in the future. Please rest assured that I am fully committed to our collaboration and look forward to working together on future projects.

Thank you for your cooperation, and I wish that our cooperation will last for a longer time.

Sincerely,

Wouter Groet
